

BIH RSI Review Process

LHJs need to provide detailed responses to the questions in PART A describing their capacity and plan for effectively recruiting African American pregnant women, adhering to SOW requirements, collaborating with health care/social service providers along with the community at-large, and implementation of services. Applications will be reviewed based on thoroughness of each question, the degree to which it adheres to the BIH Program requirements and meets CDPH/MCAH program needs as described in the RSI.

Each partner LHJ should submit their own *PART A*.

If a response is Inadequate or Barely Adequate CDPH/MCAH reserves the right to contact the LHJ for further information.

Interpretation	General basis for point assignment
Inadequate	No response is provided
Barely Adequate	Narrative response is incomplete or does not provide necessary details or requested information.
Fully Adequate	Narrative response is well developed and complete. Most of the requested details and explanations are provided.
Excellent/Outstanding	Narrative response is exceptional. It is very well developed and complete.
